Brittany's makeup bag

It's time to get layered - not just in your fall wardrobe but your makeup too - but who has the time? My top five #WhatsInMYbag favorites for fall 2017 focus on practical beauty products that help you look your best all season long, with minimal effort and maximum result.

GUERLAIN
Terracotta 4 Seasons Bronzer

What I love about this bronzer is the matte and warm tones without being too orange or ashy. I apply it with a big fluffy brush anywhere the sun would hit and voila! I look like I've been to the beach and remain glowing, long after the summer sun has gone.

2

OSIS
Refresh Dust

Let's be honest, who has the time to wash and style their hair every other day? Not me. I swear by this dry shampoo and use it in-between washes, at least every other day - sometimes every day. It leaves my hair bouncy, smelling good and fresh to the touch!

3

TOO FACED
Born This Way Foundation

I'm HOOKED on this fab find. This foundation gives amazing coverage but doesn't feel cakey or heavy at all. It works brilliantly on all skin tones since it doesn't make the face look dry and lifeless. The best part about it? It lasts all day and night.

HOURLASS Obscura Palette

I use this palette every single day and I love it because it is compact and fits easily in your makeup bag. The colors are neutral so they match every lip color and every fabulous fall outfit you decide to wear. I love using it with a little bronzer in the crease of the eye to add that touch of seasonal warmth. You can create a natural look or a smoky eye in seconds!

LADY LASH CLUB Mink Lash Subscription

At Fancy Face Inc., we are obsessed with this awesome Vancouver, Canada based company. They offer a monthly mink lash subscription, where you get a box of lashes each month at an affordable price. The company is cruelty-free (which I love) and they have the most flattering variety of styles from everyday natural and night on the town to all-out red carpet ready!
